

Erdős Problem #145

EP-145

L1 - TRACTABLE

OPEN

Combinatorics

ORIGINAL PROBLEM STATEMENT

Let $s_1 < s_2 < \dots$ be the sequence of squarefree numbers. Is it true that, for any $\alpha \geq 0$, $\lim_{x \rightarrow \infty} \frac{1}{x} \sum_{s_n \leq x} (s_{n+1} - s_n)^\alpha$ exists?
