

Erdős Problem #531

EP-531

L1 - TRACTABLE

OPEN

Graph Theory

ORIGINAL PROBLEM STATEMENT

Let $F(k)$ be the minimal N such that if we two-colour $\{1, \dots, N\}$ there is a set A of size k such that all subset sums $\sum_{a \in S} a$ (for $\emptyset \neq S \subseteq A$) are monochromatic. Estimate $F(k)$.
