

Erdős Problem #558

EP-558

L1 - TRACTABLE

PARTIALLY SOLVED

Graph Theory

ORIGINAL PROBLEM STATEMENT

Let $R(G; k)$ denote the minimal m such that if the edges of K_m are k -coloured then there is a monochromatic copy of G . Determine $R(K_{s,t}; k)$ where $K_{s,t}$ is the complete bipartite graph with s vertices in one component and t in the other.
