

Erdős Problem #602

EP-602

L1 - TRACTABLE

PARTIALLY SOLVED

Graph Theory

ORIGINAL PROBLEM STATEMENT

Let (A_i) be a family of sets with $|A_i| = \aleph_0$ for all i , such that for any $i \neq j$ we have $|A_i \cap A_j|$ finite and $e q 1$.
Is there a 2-colouring of $\cup A_i$ such that no A_i is monochromatic?
