

Erdős Problem #792

EP-792

L1 - TRACTABLE

PARTIALLY SOLVED

Number Theory

ORIGINAL PROBLEM STATEMENT

Let $f(n)$ be maximal such that in any $A \subset \mathbb{Z}$ with $|A| = n$ there exists some sum-free subset $B \subseteq A$ with $|B| \geq f(n)$, so that there are no solutions to $a + b = c$ with $a, b, c \in B$. Estimate $f(n)$.
