## Énoncé original (anglais, reproduction mot pour mot)

Conjecture Denote by  $NH(n)$  the number of non-Hamiltonian 3-regular graphs of size  $2n$ , and similarly denote by  $NHB(n)$  the number of non-Hamiltonian 3-regular 1-connected graphs of size  $2n$ .

Is it true that  $\lim_{n \rightarrow \infty} \frac{NHB(n)}{NH(n)} = 1$ ?
